Federal Rule of Civil Procedure 45 (c), (d), (e), and (g) (Effective 12/1/13)**(c) Place of Compliance.**

(1) For a Trial, Hearing, or Deposition. A subpoena may command a person to attend a trial, hearing, or deposition only as follows:

- (A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or
- (B) within the state where the person resides, is employed, or regularly transacts business in person, if the person
 - (i) is a party or a party's officer; or
 - (ii) is commanded to attend a trial and would not incur substantial expense.

(2) For Other Discovery. A subpoena may command:

- (A) production of documents, electronically stored information, or tangible things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and
- (B) inspection of premises at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) Avoiding Undue Burden or Expense; Sanctions. A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction—which may include lost earnings and reasonable attorney's fees—on a party or attorney who fails to comply.

(2) Command to Produce Materials or Permit Inspection.

(A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing, or sampling any or all of the materials or to inspecting the premises—or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

- (i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.
- (ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) Quashing or Modifying a Subpoena.

(A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:

- (i) fails to allow a reasonable time to comply;
- (ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);
- (iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or
- (iv) subjects a person to undue burden.

(B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:

- (i) disclosing a trade secret or other confidential research, development, or commercial information; or

(ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

(C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

- (i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and
- (ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) Producing Documents or Electronically Stored Information. These procedures apply to producing documents or electronically stored information:

(A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.

(D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) Claiming Privilege or Protection.

(A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

- (i) expressly make the claim; and
- (ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

(g) Contempt.

The court for the district where compliance is required—and also, after a motion is transferred, the issuing court—may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

Instructions

1. For each request, you are to produce entire documents including all attachments, enclosures, cover letters, memoranda, exhibits, and appendices. Copies that differ in any respect from an original (because, by way of example only, handwritten or printed notations have been added) shall be treated as separate documents and produced separately. Each draft of a document is a separate document. A request for a document shall be deemed to include a request for any and all transmittal sheets, cover letters, exhibits, enclosures, or attachments to the document, in addition to the document itself. These document requests shall not be deemed to call for identical copies of documents. “Identical” means precisely the same in all respects; for example, a document with handwritten notes or editing marks shall not be deemed identical to one without such notes or marks.

2. Provide all electronically stored information (“ESI”) in standard, single-page Group IV TIFF format with searchable text and metadata in a Relativity or similar load file. Also, provide any spreadsheet or presentation files, including Microsoft Access, Excel, and PowerPoint files, as well as audio, audiovisual, and video files, in their native formats. Also, provide any responsive Election System files including but not limited to software installation files, configuration files, input files, intermediate data files, output files, report files, system and application log

files, or other election software or data files (in their native formats) associated with any component of the Dominion voting system as used in Georgia elections (the Democracy Suite election manage system applications, ImageCast Precinct and ImageCast Central tabulators, and ImageCast X BMDs, and associated peripherals), including but not limited to software and/or firmware installation files (such as MSI, EXE, or APK or files in a proprietary binary format); scripts and/or configuration files used to provision or harden the installed software or firmware; EMS election project files, election project backup files, compressed archives of election project databases, and system permission rule sets; Microsoft SQL Database files; election definition and behavioral and configuration files used by ICX, ICP, and ICC devices (DAT files for ICX BMDs and files in the binary file formats used by the ICP and ICC tabulators); security credentials and encryption keys, including authentication data used to program security cards and keys to be used by the ICX, ICP, and ICC devices; result files (in the proprietary binary file format collected from the ICP and ICC tabulators); scanned ballot images; result reports in XML, PDF, HTML, and Excel formats; and device log, system log, and audit log files and reports. Produce the metadata for any responsive ESI with the responsive data, including the following fields: custodian(s), author(s), recipient(s), copy recipient(s), blind copy recipient(s), company name, subject, file sent date/time, file received date/time, file

creation date/time, file modification date/time, file access date/time, time zone, beginning bates, ending bates, page count, family bates range, hash value, application type, file type, file name, file size, file path, and folder path. Documents produced in native format shall be accompanied by a native link field.

3. Provide all hard copy documents as image files with searchable OCR text and unitize the hard copy documents to the extent possible (i.e., multi-page documents shall be produced as a single document and not as several single-page documents). Hard copy documents shall be produced as they are kept in the usual course, reflecting attachment relationships between documents and information about the file folders within which the document is found.

4. If you withhold or intend to withhold any documents or other information requested by the Requests on the ground of the attorney-client privilege, work-product doctrine, or other privilege, doctrine, or immunity, please provide a privilege log that meets the requirements of Rule 26(b)(5), including: (a) the document or information alleged to be so protected from production by author, subject matter, date, number of pages, attachments, and appendices; (b) the names and job titles of all recipients of the information or document, including any “blind copy” recipients and any person to whom the information or document was

distributed, shown, or explained; (c) the document's current custodian(s); and (d) all bases, factual and legal, upon which the claim of protection from discovery rests.

5. If only a portion of a responsive document or other requested information is claimed to be privileged against production, you should produce the responsive non-privileged portion of the document or other information in redacted form, provided that the redacted material is identified and the basis for the claim of privilege or protection is stated as provided in Instruction No. 4 above.

6. If you contend that any of the categories of the Requests are objectionable in whole or in part, please state with particularity each objection, the basis for it, and the categories of the Requests to which the objection applies, and otherwise fully respond to the category insofar as it is not deemed objectionable.

7. The documents responsive to these requests are to be produced as they were kept in the ordinary course of business, or in the way they were produced or otherwise provided to you from a third party, and, if the documents were produced by a third party, the identity of the third party shall be apparent or provided.

8. If any document responsive to this request was, but no longer is in your possession, state whether it is missing or lost; if it has been destroyed; if it has been transferred, voluntarily or involuntarily, to others; or if it has otherwise been

disposed of. In each instance, identify the document fully, explain the circumstances, and identify the people having knowledge of such circumstances.

9. If you contend that any documents covered in these requests are not reasonably accessible or would be unduly burdensome to locate or produce, identify such documents by category and source and provide detailed information regarding the burden or cost you claim is associated with the search for or production of such documents.

10. Unless clearly indicated otherwise: (a) the use of a verb in any tense shall be construed as the use of that verb in all other tenses; (b) the use of the feminine, masculine, or neuter genders shall include all genders; and (c) the singular form of a word shall include the plural and vice versa.

11. The Requests are deemed to be continuing so as to require the timely submission of supplemental responses and the production of additional documents or other information pursuant to the Rules and other applicable authority. Plaintiffs specifically reserve the right to seek supplemental responses and additional supplemental production of documents before trial.

12. Documents shall be produced to Plaintiffs via e-mail or comparable electronic means to their counsel of record or other individuals identified by Plaintiffs for receipt.
